

Dear FCC:

Please prevent big media from getting any bigger and instead encourage a more diverse, independent and minority ownership.

It is a shame that the media or govertment thinks that everyone is an idiot. Why is Britney Spears news worthy. Why do we care what Mel Gibson said when drunk? That is why we have entertainment tonight for people who like that. Give me some news please.

With all the thousands of people being killed around the world and hardly a mention of them. Why are we not hearing about the natural cures that can save our lives. Is the media bought in this country as well as the food and drug administration.

Where are our heros? Why do we make a hero out of Tom Brady? I love the guy but did he save someones life today? Did he invent something that will help people for generations to come? NO he can play a great game, so what. He will do well in life but will his life be something to strive for? Only if you care about yourself.

We loose more and more freedoms daily but we don't report on it except to just mention it. Where is the movement to correct these things.

We live in a large world yet I don't know what is going on in most of it unless there is something catastrophic happening. What happened to world new events. When I want the news I want news.

I don't want to know what every sick perverted person is doing across this country. It only gives the sick people close to home more ideas. Give me real news.

What is happening in other countries? What is causing the shift in power? How do different circumstance shape history? What has happened to new? The only place you really get news now in on PUBLIC RADIO.

There are enough air head sitcoms to entertain the people looking for that. I do not need to be entertained when I want the news.

It seems it is all about rating. Why don't you truely shake things up a bit. Question the american way of life. In some countrie's you get find if both parents working. Goverment doesn't want the job of watching your children. Some countries shut down for a month so people can go on vacaiton. Not here GREED.

What has happened to all the money that has been put aside for solar research. They are sitting on it.

Why is my ss paying for children going to college. I know a retired doctor who's children got ss checks while in college and he was alive. Wrong.

I can't believe that we would trash our President when they are in office. If you want to when they get out go for it but don't shame our country for headline.

I love my country but I don't recognize it any more. I used to be able to worship Christmas with 90% of the population. We used to go to school without worrying if we would be shoot. What has happened to America and why do I sometimes want to move some where else?

I heard of parents that were going to be arrested because they did not believe in the medical treatment the hospital was giving their son for cancer. The boy ran away to get the treatment he wanted in Canada so his parents would not be arrested. That is wrong.>>>>

You can get arrested or fined if your child rides his bike without a helmet. I'm not saying the helmets are not a good idea but it is not criminal. I would guess the insurance companies were behind that.

If you do not believe in medicating children in school you can get arrested. Why not just give them recess to get rid of the energy. Wrong.

What happened to land of the free. We have more regulation than most countries. What makes the government think they have all the answers. Is the media forbidden to talk about this? I'm sickened that criminals have more rights than the good guy. Is that because they have more money?

Why do teachers have no rights? The children run the school and children run their parents. Who was the brainiac that thought of that system? Was it a dysfunctional child that got into congress when he grew up. Why do children think they can do whatever they want? Who going to stop them? No reprimands for any action you make. It is always the other guys fault.

The news should expose and solve problems in society.

I want teachers to teach the 3 r's and science the rest can be learned at home. The schools are not baby sitters, social workers or child care providers.

If you want children then take the time to raise them. It is every parents job to take care and nurture your family not the governments. If you don't want children then don't have any. I don't feel we need to support welfare babies. Why don't people on welfare work for the state at the menial job. If we need to support them open a day care so they can work for the government.

Why can't family's afford a place to live. With the increased income of women the living expenses skyrocketed. Family's are falling apart. The husband and wife never see each other or the kids. That is not family that is room mates.

Why do we have people working everyday of the week. Shut down business for people can relax. Most of our problems come down to corporate greed. Lawyers, Pharmaceutical, Auto, oil. Greed greed greed.

So NO NO NO NO NO do not let these media mogals buy any more of the media. They wouldn't know news if they fell over it. We have real problems and real issues and they are not helping but they are feeding the frenzy to destroy. I can turn to four station and I will get the exact same news.

Shame on them. Not an original idea in any of them. At least not that they can share.

Signed  
Eleanor
